

How FlameTree may assist you

Life stressors such as work, money, emotions and limiting beliefs effect everyone differently, but one thing is for certain — these unhealthy bio-electric signals and cues can have a negative charge and a negative impact on your health.

Certified **FlameTree** Healers are skilled at not only assisting you to identify priority unhealthy bio-electric signals and cues, but neutralising and releasing them. Based on the 'Stem cell and biofield hypothesis', this has the potential to assist healing by inducing healthy bio-electric signals and cues similar to how your cells induce natural 'healing currents' that occur in response to cellular injury.*

Through the **FlameTree effect**, you may restore your innate ability to heal yourself by returning to a 'stem cell-like state'. This is where you may regain *Being* in alignment, synergy, authenticity and synergism so that you may resume *Being* your optimal self and achieve your unique purpose in life.

FlameTree may deliver this signature outcome, which is not only the desired outcome of **FlameTree**, but of all ROAs (including **pro-m-emo** and **UEFT**).

Call a Certified FlameTree Healer NOW!

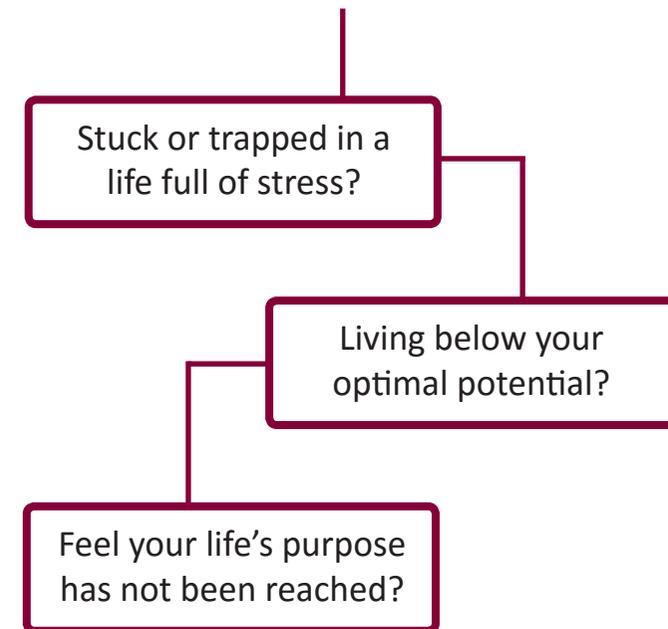

A Certified **FlameTree** Healer may assist you to escape the adverse cycle of illness, poor health and self-limitations via restoring your health and limitless potential, so that you may resume *Being* your optimal self and rediscover your life of purpose.

Live optimally, live purposefully.

Make your reservation by contacting the following Certified **FlameTree** Healer:

FLAMETREE
the personal development & healing system

A Certified FlameTree Healer may help you!

www.theflametreesystem.com

You have limitless potential!

FlameTree: *the personal development & healing system* is the signature Rhett Ogston Application (ROA). **FlameTree** is a state-of-the-art, bio-energetic, personal development and healing system. Certified **FlameTree** Healers locate, neutralise and release unhealthy bio-electric signals and cues (such as limiting beliefs and emotions). Through the **FlameTree effect**, this may result in an environment for healthy bio-electric signals and cues, and also for a healthy biofield and the subsequent healthy expression of the bio-electric code.

Those who have experienced the **FlameTree effect** describe it as assisting them to resolve issues, such as fears and limitations, enabling them to progress into a life of inspiration, good health, happiness, tranquillity, calmness and inner peace.

In **FlameTree**, these personal experiences are seen as an individual regaining *Being* in alignment, synergy, authenticity and synergism, resuming *Being* their optimal self and achieving their unique purpose in life. Reaching this state becomes a self-sustaining healthy bio-electric signal and cue that feeds our limitless potential! Hence the ROA motto of 'Live optimally, live purposefully'.

FlameTree may achieve these outcomes by integrating the strengths of many disciplines such as quantum physics, science, human biology, Western medicine, spiritual principles, yoga, the energy dynamics of acupuncture, philosophy and understanding of traditional Chinese medicine, Reiki, Ayurvedic medicine, consciousness, psychology, neuro-linguistic programming, BodyTalk, the clinical findings of applied kinesiology and life coaching.

In order to understand the **FlameTree effect**, let's introduce you to a special cell called a stem cell, the biofield, and the 'Stem cell and biofield hypothesis'.

The 'Stem cell and biofield hypothesis'

A stem cell is a special type of cell that has the unique property of being able to become any type of cell in the body. It is influenced by the type of bio-electric signals and cues it receives, whether they are healthy or unhealthy bio-electric signals and cues.*

I will use the analogy that 'you' are the 'stem cell', and like a stem cell, you have a limitless potential of becoming anything in the world, which will be influenced by the type of bio-electric signals and cues you receive.

You need to recall here that you started life from two cells (sperm and ovum), and are now an organism of over 100 trillion cells, which were organised and influenced by bio-electric signals and cues, as stated in the 'Stem cell and biofield hypothesis':

A healthy stem cell (bio-electric code) has a healthy biofield, and a healthy biofield will generate a healthy cell (bio-electric code).

When we upscale this hypothesis to you, then it is easy to understand that:

A healthy individual (made up of many stem cells and cells) has a healthy biofield, and a healthy biofield will generate a healthy individual.

The effects of biofields on your cells and your health

The biofield is an overarching descriptor for the electromagnetic, bio-photonic and other types of spatially distributed fields that all living systems generate and respond to as integral aspects of cellular, tissue and whole organism self-regulation and organisation.

It is now accepted and acknowledged by research scientists that a biofield surrounds all living cells, which includes 'you'. An exciting scientific discovery is that unhealthy and dis-eased cells have the potential to become healthy stem cells again when exposed to a healthy biofield.*

The implications of this are mind-blowing when you consider that we are all made up of cells! It should then make sense to you that if you are faced with dis-ease, it may be possible to return to a state of ease (health) when exposed to a healthy biofield.

A healthy biofield may be achieved when you are immersed in healthy bio-electric signals and cues. This is where Certified **FlameTree** Healers may assist you! By locating, neutralising and releasing unhealthy bio-electric signals and cues, they allow the **FlameTree effect** to create an environment for you to self-generate healthy bio-electric signals and cues.
